

The applications of the Vistor MS LED Surgery Light extend throughout the hospital into ambulatory surgery. This light combines unparalleled output in a compact lightweight light head and delivers it at an extremely affordable price.

Whether your needs are for a surgical light in the Operating Room, Trauma Bay, a treatment light in the ER or a procedure light the Vistor MS LED can be configured to meet your needs.

The Vistor MS LED light is a true example of how high quality and high performance can be delivered in an extremely affordable manner. This light has created a new standard in the industry being available as a single, dual or triple ceiling mount. Thereby extending its range of applications beyond the hospital into ambulatory, small clinic and physician office settings.
